ATCP160.02 PREMIUM REQUIREMENTS.

(1) GENERAL

(a) The state aid authorized by s. 93.23 (1), Stats., may be paid on net premiums paid by a county or district fair. The department may withhold state premium aid from any fair which does not enforce the animal health provisions required under ch. ATCP 10 that are applicable to animals exhibited at the fair. State aid will be paid only on premiums actually paid by bank check or draft.

(b) No deductions may be made from premium money won by an exhibitor. Premiums may, however, be withheld where exhibition rules established by the fair association are violated. A written statement of violation shall be submitted to the department to justify action taken by a local fair.

(c) Premiums offered shall be definite in amount. No decrease or increase in published premiums may be made because of the financial condition of the organization or for any other reason.

(d) State aid may be paid on no more than 2 premiums awarded an exhibitor under one premium or Lot No. in open division individual livestock classes, except poultry and rabbits, and no more than one premium in all other classes, including poultry and rabbits.

(e) No county or district fair may receive state aid for a premium awarded to any exhibitor in the open division if that exhibitor entered the same exhibit in the junior division at the same county or district fair. This paragraph does not apply if the exhibit was entered in the junior division only as part of a herd group, carcass class or performance class.

(f) No state aid will be paid on the cost of ribbons, cups, trophy prizes or entertainment contests.

(2) PREMIUM LISTS

(a) Premiums for which state aid is requested by county and district fairs shall conform with uniform premium list and other requirements as set forth in these rules. Fairs requesting state aid for

net premiums shall submit to the Department, a printed copy of the premium list used at the fair, as required under s. ATCP 160.92 (3)(c)

(b) The officers of each fair shall mail a copy of the premium list to other associations, societies, or boards conducting a fair in Wisconsin upon request.

(c) Sections ATCP 160.01 through 160.07 and 160.91 shall be published in the premium books used by a fair for which state aid is requested.

(3) ENTRY FEES

(a) A county or district fair may charge an exhibitor an entry fee. The entry fees may not be in excess of 10% of the sum of all premiums offered to exhibitors in the same class for which the entry fee is charged. In lieu of an entry fee, a county or district fair may charge stall rents for horses, cattle, sheep, goats, swine, poultry, rabbits, or pets.

(b) Exhibitors in department 35 shall not be required to purchase an exhibitor's ticket. Any other exhibitors may be required, if no entry fee is charged, to purchase an exhibitor's season ticket at a price not to exceed that charged for non-exhibitors season tickets.

(4) SPLIT FAIR DATES

(a) For purpose of this subsection, "split fair dates" occur when a fair organization judges exhibits or contest and pay premiums at more than one time or more than one location during the calendar year.

(b) Except as provided under par. (c), the department may not pay state aid for fair having split dates unless the Department gives advance written approval for a split fair. The department may approve split fair dates only if the fair organization justifies the split dates on extreme hardships. If the department approves split dates, all blue ribbon winners shall repeat their demonstrations or exhibits at the regular fair dates unless the department grants a hardship exemption. An exhibitor may use audio-visual media, still photography or educational display to repeat a demonstration or exhibit.

(c) The department may pay state aid for the following exhibits or contest in a fair having split dates, regardless of whether the department approves those split dates in advance :

1. Clothing revue.
2. Demonstrations.

3. Favorite foods revue.
4. Dogs.
5. Small animals.
6. Rocketry.
7. Shooting sports.
8. Other exhibits and contests that are similar to those identified in subds. 1. To 7.

(1) No fair society or other organization sponsoring a county or district fair shall require an exhibitor to become a member of the organization in order to enter an exhibit at the fair, nor shall the sponsoring organization make any deduction from an exhibitor's premium as a donation to the fair society, or require an exhibitor in any other way to make a donation to the society.

(2) State aid may not be approved for out-of-state exhibits or for separate classes of local and non-local exhibitors. Aid may not be approved for payment of premiums to an exhibitor having an out-of-state address but claiming Wisconsin residency unless the fair secretary provides the department with an affidavit that the exhibitor's residence is geographically located within the state.

(3) State aid may be paid only on articles or animals actually on display in an exhibit building or actually shown in the show ring on regular fair dates, unless approval for split fair dates is obtained under s. ATCP 160.02 (4). State aid may not be paid on Dairy Herd Improvement Association records, transportation aid, production contests or other special educational exhibits unless prior approval is obtained under s. ATCP 160.04 (8).

(4) State aid may not be paid on exhibits removed from the fairgrounds before 4:00 p.m. of the last day of the fair, or such **other later time as** may be specified by the fair, without prior approval of the department. In other hardship cases, approval may be granted by the local fair. Exhibits in dog obedience and small animal pet classes may be judged during the regular fair, but are not required to remain present during the entire fair. (7) Special education exhibits may [be] established if the proposal is presented to the Wisconsin association of fairs before October 1 of the

year preceding its proposed establishment and the exhibit is approved by the department.

(8) Within any junior fair department under subch. IV, a county or district fair may establish special classes where none are specified under subch. IV. Special classes may include classes for grade and cross-bred females in the beef, swine, sheep and horse departments. Premiums for special classes created under this subsection shall be equal to premiums for comparable classes established in the same department under subch. IV.

ATCP 160.05 OPEN DIVISION: GENERAL REQUIREMENTS.

Registered purebred status shall be documented by a certificate of registry from the appropriate breed association or society, or a by a copy of the application for registration.

c/o Lafayette County UW-Extension Office
627 Washington Street - Darlington, WI 53530**

****ATTENTION ALL YOUTH LEADERS****

A number of people have expressed concern about the allotment of space in the cattle barn. This problem is the result of clubs reserving more space than they really need. We recognize it is difficult at entry time to report an accurate number of animals which will actually come to the fair.

Judging of Herdsmanship will be handled by animal superintendents or their representatives. Herdsmanship awards will be judged in dairy for 4-H class and FFA chapter/Junior Holstein. Beef, sheep, and swine awards will be awarded to 4-H and FFA chapters. Judging of “Herdsmanship” contest will begin on Friday, July 11 after 3:00 p.m. You will be judged on: Preparation of the Exhibit, Care of Exhibit, and Appearance and Attitude of exhibitors.

AH Docket No. 35PM02274-1**

**SUMMARY SPECIAL ORDER BANNING SWINE WEIGH-INS IN 2014
INTRODUCTION**

The State of Wisconsin Department of Agriculture, Trade and Consumer Protection ("department"), by the State Veterinarian, based upon its efforts to protect Wisconsin's pork industry from the spread of Porcine Epidemic Diarrhea virus (PEDv), a deadly, communicable virus among pigs, makes the following findings of fact and conclusions of law and issues the following summary special order to the state fair and the county and district fairs in Wisconsin (see the attached list):

FINDINGS OF FACT

(1) The department is responsible for administering Wisconsin's animal health program under ch. 95, Wis. Stats. The program is designed to protect the health of animals in this state, and to prevent, control and eradicate communicable diseases among animals. The department has broad authority to adopt rules interpreting statutes under its jurisdiction (see s. 93.07 (1), Wis. Stats.).

(2) To protect the health of animals located in this state and of humans residing in this state, the department may establish, maintain, enforce, and regulate quarantines and other measures relating to the importation, movement, and care of animals and their products, the disinfection of suspected localities and articles, and the disposition of animals, as the department determines are necessary (see s. 93.07 (10), Wis. Stats.).

(3) The department may prohibit or regulate the importing of animals into this state or the movement of animals within the state if the department has reasonable grounds to believe that regulation or prohibition is necessary to

prevent the introduction or spread of a disease in this state that threatens the health of animals or of humans (see s. 95.20, Wis. Stats.).

(4) A veterinarian, the department of natural resources, or a person who diagnoses or obtains credible diagnostic evidence of specified diseases must report the disease to the department within 10 days of discovery of the disease in any animal in this state (see s. 95.22 (1), Wis. Stats., and s. ATCP 10.03 (2), and ch. ATCP 10, Appendix B, Wis. Admin. Code). Under Clearinghouse Rule 13-058, the department will be adding the Porcine Epidemic Diarrhea virus (PEDv) to that list of reportable diseases in spring 2014.

(5) The PEDv is a new virus to the U.S. and was first confirmed in the country on May 17, 2013.

(6) The PEDv is similar to the transmissible gastroenteritis (TGE) virus and causes diarrhea, vomiting and severe dehydration in pigs. The PEDv is a costly, highly contagious disease among pigs that can result in tremendous production losses for swine producers. The disease is not transmissible to humans or other livestock.

(7) In pigs three weeks of age and younger, PEDv can lead to 100 percent mortality. As pigs get older, mortality declines.

(8) There is no treatment that cures PEDv and no commercially-available PEDv vaccine in the United States.

(9) According to industry analysts, the PEDv has been found in more than 20 states and as many as four million swine have died from the disease since being found in the U.S. pig population in May 2013.

(10) To date, Wisconsin has seen seven confirmed cases of the PEDv.

(11) PEDv is causing much damage and concern in the pork industry.

Arkansas, North Dakota, Oklahoma, and Texas require statements on the certificate of veterinary inspection (CVI) that pigs are originating from PEDv-free herds, prior to being imported into those states.

(12) The PEDv is readily transferred via swine feces and fomites (gates, vehicles, boots, clothing, etc.) and survives in manure for extended periods of time. Thus, anything that manure and the virus contacts can be a source of infection. Winter slush and muck are particularly helpful in keeping the virus active and transferrable.

(13) Transmission can be minimized by limiting the commingling of swine between farms and by swine producers using proper biosecurity methods, including washing trucks and trailers between loads, washing and disinfecting boots and clothing, and establishing a line of separation between clean and dirty areas.

(14) Generally, market animals participate in "weigh-ins" during the spring before the fair season. The main purpose of the weigh-in is to tag the swine for identification and to establish that the animals are below maximum weight for their class (for example in some fairs, barrows/gilts cannot weigh more than 60 pounds at the spring weigh-in). A weight baseline is established for each swine in order to calculate an average daily rate of gain. Prizes are given for the fastest gaining animals.

(15) Weigh-ins are organized by fairs and can occur at the fairgrounds or at appointed sites at individual farms using a mobile scale. Weigh-ins using either technique could cause the commingling of, or exposure to animalq with PEDv, by thousands of swine.

(16) The swine that are weighed at these spring weigh-ins are very young, and at the point they are most susceptible to the PEDv.

(17) The swine participating in these spring weigh-ins at the designated fair sites will then return home and possibly expose additional pigs at the farm-of-origin to the disease. The swine that are weighed on their own home farm by a traveling scale may also be exposed to the PEDv if the traveling scale is not properly disinfected prior to arrival at the farm.

(18) Although the weigh-ins have long been associated with the identification and designation of swine to be sold later in the market animal sale at the fair, it is not the only way to accomplish this task. The swine could be identified at home, and pictures could be submitted as documentation in the spring, or DNA samples could be submitted in the spring.

CONCLUSIONS OF LAW

(1) Under chs. 93 and 95, Wis. Stats., the department has jurisdiction over the protection of the health of animals in this state and the authority to prevent, control and eradicate communicable diseases among animals through quarantines and other measures. The department is authorized to take this action to protect swine health in Wisconsin.

(2) PEDv is a communicable disease transmitted through swine feces and fomites. Manure and anything the virus contacts can be a source of infection.

(3) Commingling of swine increases the chances of exposure to this generally fatal disease in young pigs. Returning the same animals to their home farms increases the likelihood of spreading the disease. Limiting the commingling of swine, especially young pigs, will help prevent, and control the spread of PEDv.

(4) Regulating and prohibiting the movement of pigs to "spring weigh-ins" is necessary to prevent the introduction or spread of PEDv in Wisconsin that threatens the health of pigs in this state.

SPECIAL ORDER

Based upon the above stated findings of fact and conclusions of law, and in accordance with ss. 93.07 (10) and 95.20, Wis. Stats., IT IS HEREBY ORDERED that:

(1) The 2014 "spring weigh-ins" of pigs at the fairgrounds of Wisconsin's state, county and district fairs, in preparation for Wisconsin's state, county and district fair season, are banned. The fairs are prohibited from allowing the movement of pigs onto their premises or other sites for the purposes of the "2014 spring weigh-ins." This ban includes both the weigh-ins on the fair premises and the organized farm-to-farm weigh-ins using mobile scales.

(2) This order will remain in effect through September 30, 2014.
